Education

University of California Irvine

PhD, Philosophy, Department of Logic and Philosophy of Science 2018–2023

University of California Irvine

MA, Social Sciences, Center for Theoretical Behavioral Sciences 2018–2023

University of Houston

MA, Philosophy, 2016–2018

Rice University

BA, Mathematics, 2008–2013

Academic Employment

Emory University

Visiting Assistant Professor, Department of Data and Decision Sciences 2025–present

Taught DSCI 150 Introduction to Statistical Computing and DSCI 160 Programming Fundamentals for Data Science. The courses taught foundational programming and data science concepts, in R and Python respectively. Content included creating functions, loops, and conditional statements, basic object oriented programming, data wrangling and data visualization.

University of California Merced

Postdoctoral Scholar, Department of Cognitive and Information Sciences 2023–2025

Conducted research on social identity signaling, specifically when people have multiple complex identities. This included developing a formal model, writing code for simulating the model, and co-authoring a paper explaining the model and the outcomes it produces. Supported by NSF grant: BCS-2241823.

Works in Progress

Franco-Sicilian Abstraction: transpositions, transitivity and transfer learning with Lewis-Skyrms signaling games Nathan Gabriel

Posters and Presentations

Computational Social Philosophy Seminars

presentation, "Intersectionality in the Generalized Bach or Stravinsky Game" virtual 2025

University of California Davis Department of Anthropology

presentation, "The Emergence of Group Identity Topologies" Davis 2024

Workshop on Modeling and Applications of Evolutionary Game Theory

presentation, "Franco-Sicilian Abstraction" virtual 2023

Philosophy of Science Association Conference

symposium, "On the Stability of Racial Capitalism" Pittsburgh 2022

Philosophy of Science Association Conference <i>poster, "Confirmation Bias and Illusory Truth in Epistemic Networks"</i>	Pittsburgh 2022
Formal Epistemology Workshop <i>poster, "Confirmation Bias and Illusory Truth in Epistemic Networks"</i>	Irvine 2022
Philosophy of Science Association Conference <i>poster, "Can Confirmation Bias Improve Group Learning?"</i>	Baltimore 2021
Formal Epistemology Workshop <i>poster, "A How-Possibly Model of Putty-nosed Monkey Alarm Calls"</i>	Irvine 2020

Teaching

Emory University <i>Visiting Assistant Professor</i> Taught DATASCI 150 Introduction to Statistical Computing I.	2025-present
University of California Irvine <i>Associate Instructor</i> Taught LPS 31 Introduction to Inductive Logic.	summer 2023
University of California Irvine <i>Graduate Student Researcher</i> Conducted research on polarization of beliefs in epistemic networks. Research was supported by NSF grant 1922424: Consensus, Democracy, and the Public Understanding of Science.	summers 2021, 2022
University of California Irvine <i>Teaching Assistant</i> Taught discussions sections, graded, and gave review sessions for exams. Selection of classes taught: • LPS 29 Critical Reasoning • LPS 30 Intro to Symbolic Logic • LPS 31 Intro to Inductive Logic • PSYCH 7A Intro to Psychology • PSYCH 9A Psych Fundamentals	2019–2023
University of Houston <i>Teaching Assistant</i> Held office hours, graded, and gave review sessions for exams. Selection of classes taught: • PHIL 1301 Introduction to Philosophy • PHIL 1321 Logic 1	2017–2018

Service

Philosophy of Science Association <i>Underrepresented Philosophers of Science Scholars committee member</i> Met regularly to discuss committee initiatives. Helped pair scholars with mentors in their area of expertise.	2025–present
UC Merced Cognitive and Information Sciences <i>Mentorship for Undergraduates (MUG) Mentor</i> Met regularly with mentee to provide advice on current studies and plans for applying to graduate school.	2024–2025
Minorities and Philosophy <i>MAP Representative</i> Organized talks and resources related to minorities' navigation of academic philosophy.	2021–2023

School on Wheels*Volunteer Tutor*

2021–2023

Tutored grade school and high school children in a variety of subjects.

LPS Climate Committee*MAP Representative*

2021–2023

The LPS Climate Committee is a graduate student led committee promoting diversity equity and inclusion.

UCI - End Racism Initiative*Co-leader (group 1)*

2020–2021

Attended leadership training on facilitating restorative dialogue; and facilitated dialogue focused on the recruitment of Black faculty.

Prepare and Prosper*Volunteer Tax Preparer*

2015

Screened and prepared tax returns for low income clients.

Samro School**Eldoret, Kenya***Volunteer*

2013

Tutored mathematics for junior high school students, assisted with the development of a school computer lab, taught chess and organized tournaments for students who previously had no exposure to the game.

Awards and Fellowships

- Division of Teaching Excellence and Inclusion Summer Fellowship (UCI, Summer 2022)
- Social Science Merit Fellowship (UCI, 2018-2024)
- Herbert Lehman Scholarship (NAACP Legal Defense and Educational Fund, 2008-2012)
- Trustees' Distinguished Scholarship (Rice University, 2008-2012)
- African-American Scholars Program (University of Notre Dame, Summer 2007)
